

Federal Communications Commission

§ 63.14

(b) of this section shall not apply where:

(1) The applicant is affiliated with a foreign carrier in a destination market, unless the applicant clearly demonstrates in its application at least one of the following:

(i) The Commission has previously determined that the affiliated foreign carrier lacks market power in that destination market;

(ii) The applicant qualifies for a presumption of non-dominance under § 63.10(a)(3);

(iii) The affiliated foreign carrier owns no facilities, or only mobile wireless facilities, in that destination market. For this purpose, a carrier is said to own facilities if it holds an ownership, indefeasible-right-of-user, or leasehold interest in bare capacity in international or domestic telecommunications facilities (excluding switches);

(iv) The affiliated destination market is a WTO Member country and the applicant qualifies for a presumption of non-dominance under § 63.10(a)(4) of this part;

(v) The affiliated destination market is a WTO Member country and the applicant agrees to be classified as a dominant carrier to the affiliated destination country under § 63.10, without prejudice to its right to petition for reclassification at a later date; or

(vi) An entity with exactly the same ultimate ownership as the applicant has been authorized to provide the applied-for services on the affiliated destination route, and the applicant agrees to be subject to all of the conditions to which the authorized carrier is subject for its provision of service on that route; or

(2) The applicant has an affiliation with a dominant U.S. carrier whose international switched or private line services the applicant seeks authority to resell (either directly or indirectly through the resale of another reseller's services), unless the applicant agrees to be classified as a dominant carrier to the affiliated destination country under § 63.10 (without prejudice to its right to petition for reclassification at a later date); or

(3) The applicant seeks authority to provide switched basic services over

private lines to a country for which the Commission has not previously authorized the provision of switched services over private lines; or

(4) The Commission has informed the applicant in writing, within 14 days after the date of public notice listing the application as accepted for filing, that the application is not eligible for streamlined processing.

(d) If an application is deemed complete but, pursuant to paragraph (c) of this section, is deemed ineligible for the streamlined processing procedures provided by paragraphs (a) and (b) of this section, the Commission will issue public notice indicating that the application is ineligible for streamlined processing. Within 90 days of the public notice, the Commission will take action upon the application or provide public notice that, because the application raises questions of extraordinary complexity, an additional 90-day period for review is needed. Each successive 90-day period may be so extended. The application shall not be deemed granted until the Commission affirmatively acts upon the application. Operation for which such authorization is sought may not commence except in accordance with any terms or conditions imposed by the Commission.

§ 63.13 Procedures for modifying regulatory classification of U.S. international carriers from dominant to non-dominant.

Any party that desires to modify its regulatory status from dominant to non-dominant for the provision of particular international communications services on a particular route should provide information in its application to demonstrate that it qualifies for non-dominant classification pursuant to § 63.10.

§ 63.14 Prohibition on agreeing to accept special concessions.

(a) Any carrier authorized to provide international communications service under this part shall be prohibited, except as provided in paragraph (c) of this section, from agreeing to accept

special concessions directly or indirectly from any foreign carrier with respect to any U.S. international route where the foreign carrier possesses sufficient market power on the foreign end of the route to affect competition adversely in the U.S. market and from agreeing to accept special concessions in the future.

NOTE TO PARAGRAPH (a): Carriers may rely on the Commission's list of foreign carriers that do not qualify for the presumption that they lack market power in particular foreign points for purposes of determining which foreign carriers are the subject of the prohibitions contained in this section. The Commission's list of foreign carriers that do not qualify for the presumption that they lack market power is available from the International Bureau's World Wide Web site at <http://www.fcc.gov/ib>.

(b) A special concession is defined as an exclusive arrangement involving services, facilities, or functions on the foreign end of a U.S. international route that are necessary for the provision of basic telecommunications services where the arrangement is not offered to similarly situated U.S.-licensed carriers and involves:

(1) Operating agreements for the provision of basic services;

(2) Distribution arrangements or interconnection arrangements, including pricing, technical specifications, functional capabilities, or other quality and operational characteristics, such as provisioning and maintenance times; or

(3) Any information, prior to public disclosure, about a foreign carrier's basic network services that affects either the provision of basic or enhanced services or interconnection to the foreign country's domestic network by U.S. carriers or their U.S. customers.

(c) This section shall not apply to the rates, terms and conditions in an agreement between a U.S. carrier and a foreign carrier that govern the settlement of international traffic, including the method for allocating return traffic, if the international route is exempt from the international settlements policy under § 43.51(e)(3) of this chapter.

§ 63.16 Switched services over private lines.

(a) Except as provided in §§ 63.22 (e)(2) and 63.23(d)(2), a carrier may provide switched basic services over its authorized private lines if and only if the country at the foreign end of the private line appears on a Commission list of destinations to which the Commission has authorized the provision of switched services over private lines. The list of authorized destinations is available from the International Bureau's World Wide Web site at <http://www.fcc.gov/ib>.

(b) An authorized carrier seeking to add a foreign market to the list of markets for which carriers may provide switched services over private lines must make the following showing:

(1) If seeking a Commission ruling to permit the provision of international switched basic services over private lines between the United States and a WTO Member country, the applicant shall demonstrate either that settlement rates for at least 50 percent of the settled U.S.-billed traffic between the United States and the country at the foreign end of the private line are at or below the benchmark settlement rate adopted for that country in IB Docket No. 96–261 or that the country affords resale opportunities equivalent to those available under U.S. law (see paragraph (c) of this section).

(2) If seeking a Commission ruling to permit the provision of international switched basic services over private lines between the United States and a non-WTO Member country, the applicant shall demonstrate that settlement rates for at least 50 percent of the settled U.S.-billed traffic between the United States and the country at the foreign end of the private line are at or below the benchmark settlement rate adopted for that country in IB Docket No. 96–261 that the country affords resale opportunities equivalent to those available under U.S. law (see paragraph (c) of this section).

(c) With regard to showing under paragraph (b) of this section that a destination country affords resale opportunities equivalent to those available under U.S. law, an applicant shall include evidence demonstrating that equivalent resale opportunities exist
